

ACCESSORIES

Light for marking area

Product Description

A well-lit marking area makes quick & easy aligning parts.

Fasten it simply and switch it on, this light will bring comfort to your marking operations.

Benefits of the light

- **Simple & quick**

Fitted with a simple clip, only a few seconds are needed to mount it, switch it on & light the marking area: the adjustment of the markings becomes faster.

- **Efficient & flexible**

3 LED array produces long-lasting, white and diffuse light. Independently battery-powered, it can be used all day long or as needed (Battery life: 120 hours).

- **Adjustable**

Mounted on a rotary support, it can be horizontally and vertically adjusted. Light beam can be easily aimed according to the part's shape.
